

CSCI 1300

Intro to Computing

Gabe Johnson

Lecture 37

Apr 17, 2013

More Linked List Coding

Lecture Goals

1. Coding!

Upcoming Homework Assignment

HW #9 **Due: Friday, Apr 26**

Linked Lists

Remember I pushed the due date to April 26. The other (extra credit) assignment on Linked Lists done with C++ classes will be due on the same day.

Big things to keep in mind:

(1) ensure input data is OK

(2) consider different conditions (e.g. empty list, first item, last item, etc.)
